ABS Plumbing Pipe Fittings | eBay

PVC and ABS threaded fittings are often used in, for example, the water treatment, ship building and chemical processing industries. Depending on the type, they can connect straight pipe or tubing sections, adapt to different sizes or shapes and regulate or measure fluid flow. As these PVC and ABS fittings are threaded, they can be coated in thread sealing paste and screwed into the pipe system.

Durapipe ABS combines corrosion resistance, toughness and economic benefits to provide tremendous advantages for low temperature fluid transportation. ABS is a solvent welded, fully matched pipework system incorporating pipe, fittings and valves that are available in both imperial and metric sizes. ABS provides a wide temperature range and the system remains extremely ductile even at temperatures as low as -40°C.
