Tumblr Thread Imagines Alien Invasion Being Fought Off By Wildlife. An interesting Tumblr thread imagines what could happen with an alien invasion vastly underestimating the power of earth's wildlife, in the face of an attack. How about that bacteria, though. Alien invaders such as the New Zealand flatworm and the Indian house crow have hitchhiked their way into Europe thanks to the boom in global trade in the past 50 years. Advertisement The EU's landmark alien species law in 2015 put the emphasis on preventing creatures and plants arriving on the Continent in the first place.
