I am seeking technical data and blueprints on the Le Rhone / Oberursel 110 hp engine. I have aspirations of building a full size operational engine for my own personal use. I have access to CNC machining equipment and I believe it will be possible to construct one of these engines. If anyone can help me in my quest I welcome any and all leads ...

Le Rhone / Oberursel Engine Blueprints - The Aerodrome

Very early on it became apparent that it was based on the LeRhône 110 engine for which we had a set of partial plans and hence were able to lay out peculiar looking parts in a rough reference of the assembled engine. This provided us with important information such as; complexity of parts, suitable material strengths and tolerance.

Oberursel 110hp UR.II Engine Build | The Vintage Aviator

This Le RHONE Model 9J 110 hp rotary engine was manufactured December 29, 1917 for the US WW1 war effort. I assume it was made in France but other manufacturers also built this engine. Amongst others this Le Rhone engine powered the Sopwith Camel, the Fokker including the triplane and the Vicker. This engine could possibly be rebuilt and be up in the air again.

Le Rhone Engine Plans - vokdsite.cz

At that point, the buyer will owe 50% of the price of the engine (50% of a \$40K engine is \$20K). When the engine is test run and shows that it is ready for installation, the buyer will pay an additional 30% (30% of \$40K is \$12K). At this point, your engine is ready for pick up and you have paid \$32K.

Reproduction 110 Le Rhone For Sale Now - The Aerodrome

Between 1914 and 1918 they produced 25,000 of their 9-cylinder Delta and Le Rhône 110 hp (81 kW) rotary designs, while another 75,000 were produced by various licensees. These engines powered the majority of aircraft in the first half of the war, both Allied designs as well as German examples produced by Motorenfabrik Oberursel.

Gnome et Rhône - Wikipedia

Used in the Sopwith Camel, the Sopwith Pup, the Thomas Morse Scout , and the Fokker DR.1 Triplane, the Le Rhône rotary engine was a very successful engine in spite of its complexity. Thousands of Le Rhône's were built and they worked very well. Even today, one can turn one of these 90-odd-year-old engines over by hand and feel it moving as smooth as an old sewing machine.

Le Rhône Rotary Engine - Aviation History

Le Rhône 9J Engine History. The Le Rhône 9J is a nine-cylinder rotary aircraft engine produced in France by Gnome et Rhône. Also known as the Le Rhône 110 hp in a reference to its nominal power rating, the engine was fitted to a number of military aircraft types of the First World War. Le Rhône 9J engines were produced under license in Great Britain by W.H. Allen Son & Company of Bedford, and in Germany by Motorenfabrik Oberursel.

Le Rhône 9J Engine History | The Vintage Aviator

This rare French aero engine, the Le Rhone, Type R, 9-cylinder engine of 170 or 180 hp built in about 1918, was developed from the Gnome rotary engine, which was designed in Germany in 1905. It was
