Project MUSE - Small States in International Relations

Small states have a heightened exposure to external shocks because they depend heavily on exports due to their small domestic markets, and on imports, as a result of their limited resources. Of concern is their almost total dependence on strategic imports – notably food and fuel. The vulnerability of small states, however, does not stop there.

Small States - World Bank

That universe is conceived substantively, not statistically, as capitalist states that had entered world markets early, in the late 19th or early twentieth centuries. Excluded from the analysis thus are Finland and Ireland, some of the Mediterranean countries, the small states in East and Southeast Asia, and the socialist states in Eastern Europe.
